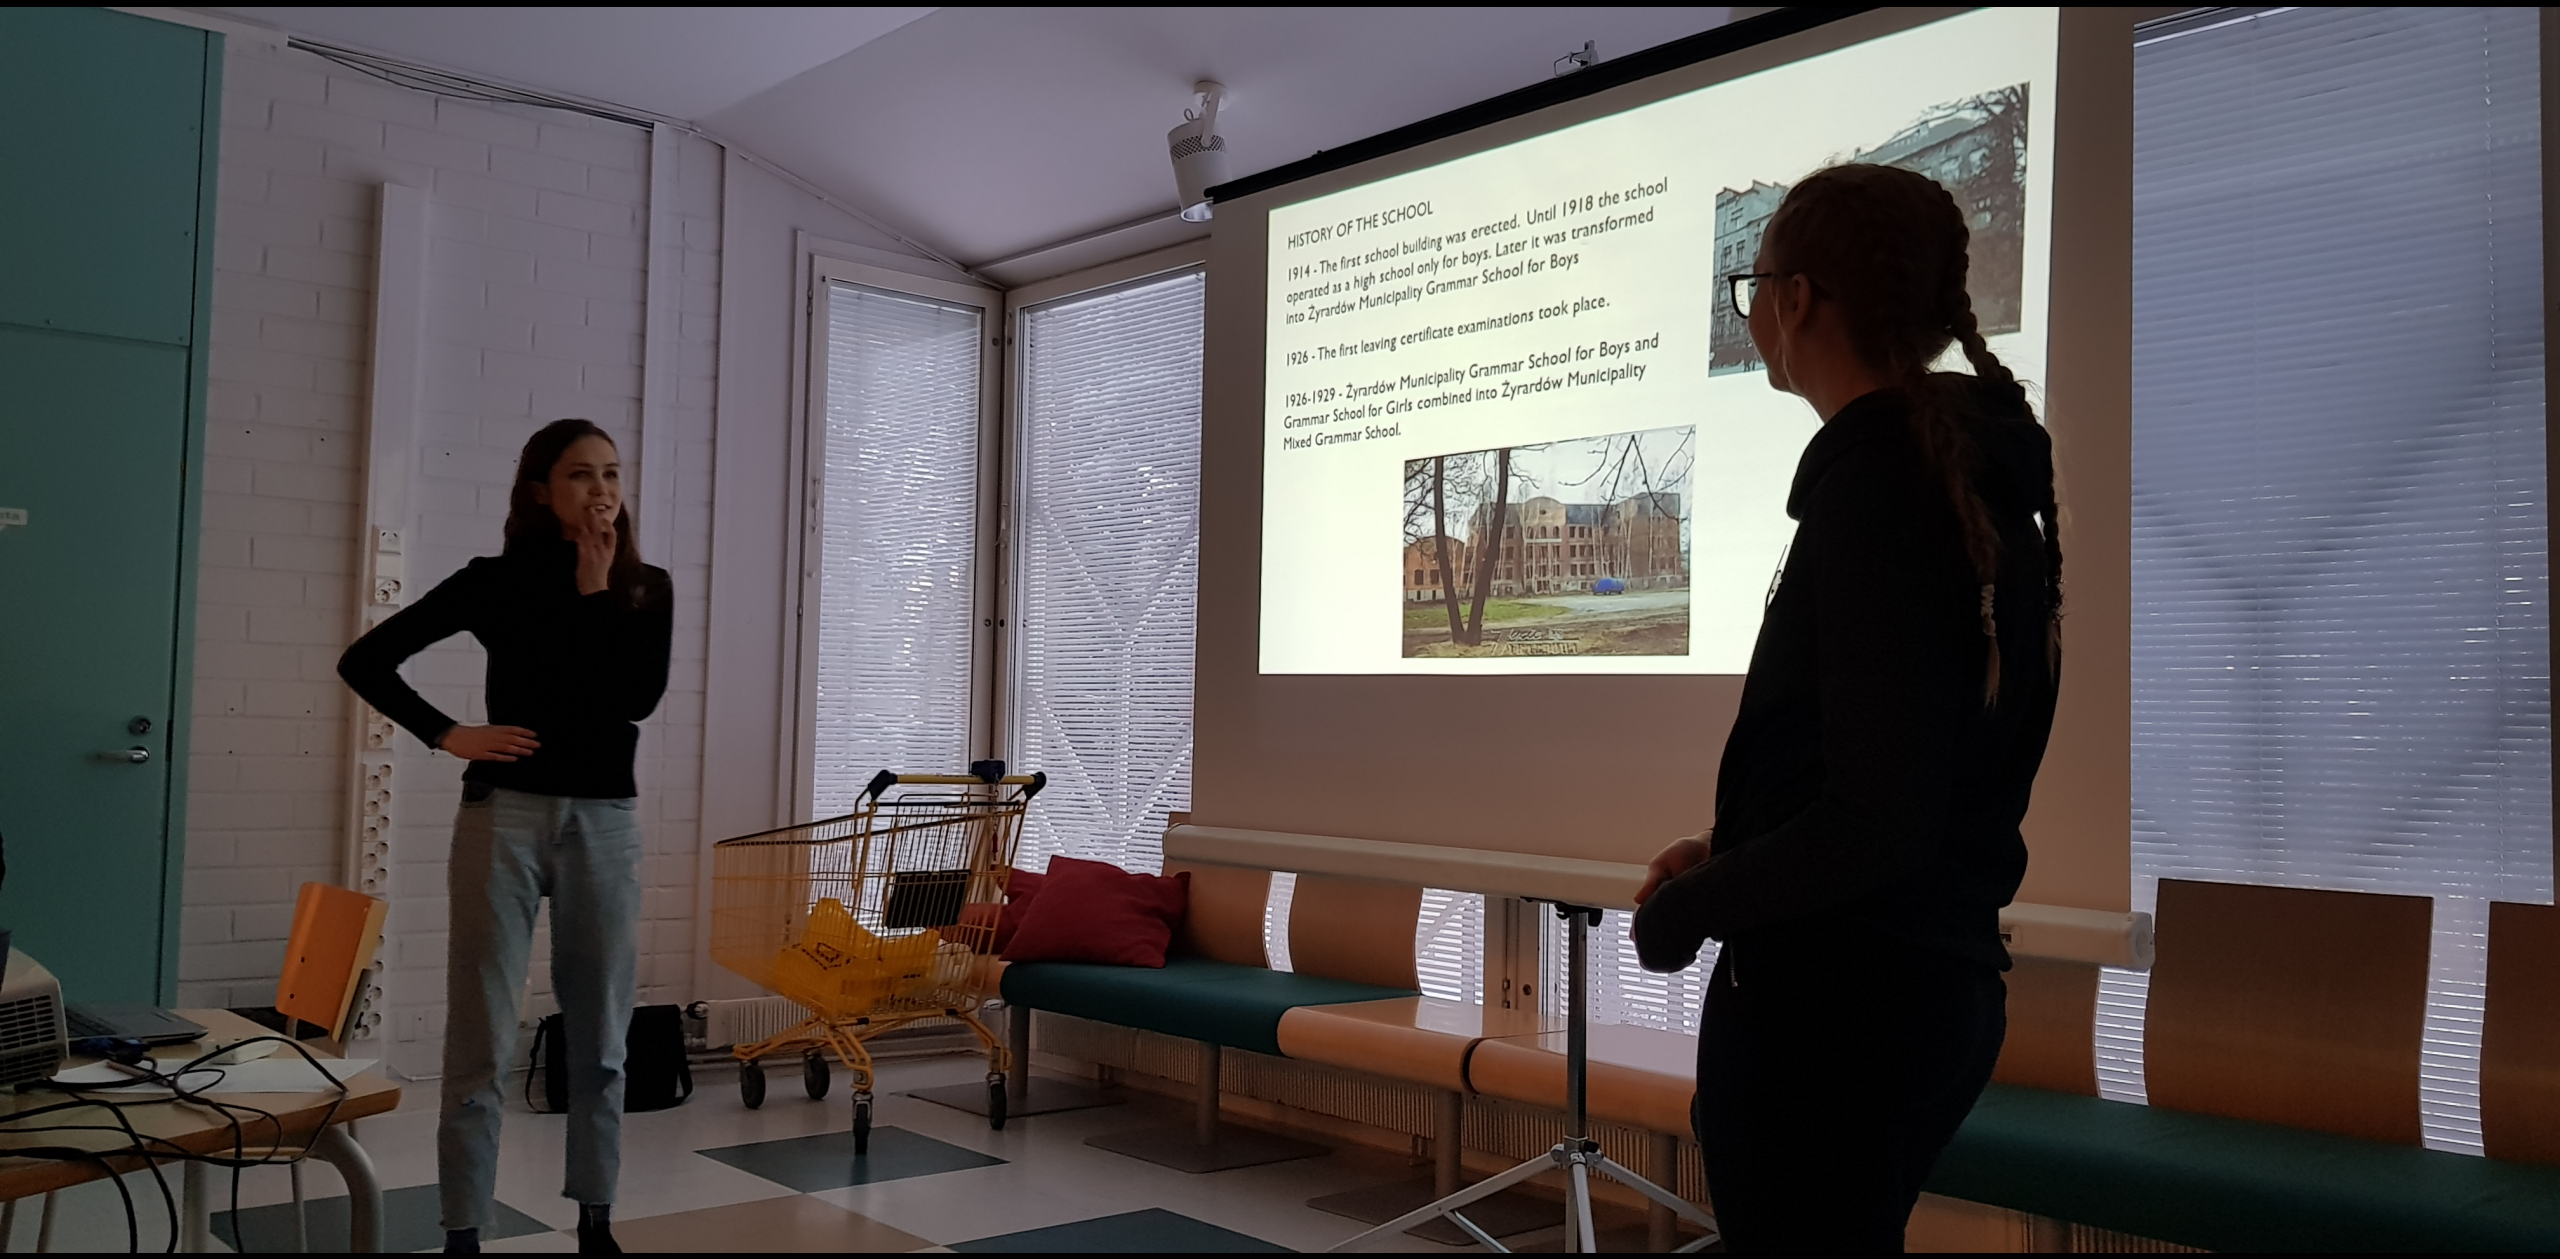
Haapavesi 2019



HISTORY OF THE SCHOOL
1914 - The first school building was erected. Until 1918 the school operated as a high school only for boys. Later it was transformed into Żyrardów Municipality Grammar School for Boys
1926 - The first leaving certificate examinations took place.
1926-1929 - Żyrardów Municipality Grammar School for Boys and Grammar School for Girls combined into Żyrardów Municipality Mixed Grammar School.

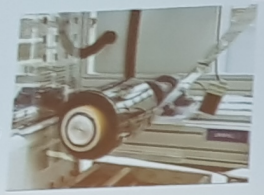
PrintoCent
9.45 Welcome / Ilkka Kaisto, VTT& PrintoCent
PrintoCent introduction - 30min / Ilkka
Educational opportunities related to Printed Intelligence
. in University of Oulu - 7min/ Tapio Fabritius, Oulun Yliopisto
. in Oulu University of Applied Sciences - 7min / Harri Määttä, Oulun Ammattikorkeakoulu
10.30 PrintoCent Pilot Factory Tour - Roll to Roll - In 3 GROUPS
. Printing & Component Assembly / Teemu Alajoki, VTT
. Testing / Tuomas Happonen, VTT
. Special topics / Ilkka
11.15 Discussion /Ilkka
... and then to the bus

Printed Intelligence Is Based on…



- fluid processable materials technology
- large area high-volume printing like mass-manufacturing methods
- functionality from electronics, biotechnology, chemistry, optics, optoelectronics, etc. integrated as devices and systems

Generic, enabling technologies

- **Patterning, devices, integration, systems-on-foil, embedding 'electronics' into products**
- **R2R to hybrid processes & production equipment**
- **Materials**

NordFuel
NordFuel

NordFuel
NordFuel project at a glance
350 employees locally
A tank truck load of transportation fuel in every fifth hour
Uses wood (chips, sawdust, spines) two truck loads in an hour
Ethanol and biogas for fuel to 30,000 cars
€150 million investment
Power plant produces flexibly weatherproof electricity 300 to 500 GWh/a
